Available in [Operator menu / Configuration / System / Jackpot & Credit Limits].

For **proper reporting**, please configure the **settings below** for **Version 1** and **Version 2** according to the instructions.

All other settings should be adjusted based on **each property's preferences**.

We **recommend setting the credit limit higher** than the **upper jackpot limit**, but you can adjust it according to the property's request. Just keep in mind that **any amount over the credit limit will result in a hand pay**.

- Version 1 Setup:
 - **Jackpot Limit:** Set to 300x max bet enabled.
 - **Upper Jackpot Limit:** Set to 300x max bet enabled.
 - **Min Progressive Lock:** Set to 300x max bet enabled.
 - **Jackpot Limit HHR:** Leave at \$600 for anything taxable over 600 and 300x max bet.
- Version 2 Setup:
 - **Jackpot Limit:** Leave at \$600 for anything taxable over 600 and 300x max bet.
 - **Upper Jackpot Limit:** Set to 300x max bet enabled.

1. Jackpot & Credit Limits configs HHR

Jackpot & Credit Limits HHR			
Config	Minimum value	Maximum value	Default value
Max Ticket In/Elec. Transfer	Max Bill In	Max Credit	\$1,000.00
Max Bill In	\$0.01	Max Ticket In/Elec. Transfer	\$1,000.00
Max Credit	Max Ticket In/Elec. Transfer	\$999,999.99	\$5,000.00
Max Ticket	\$0.01	\$999,999.99	\$5,000.00
Upper Jackpot Limit	Jackpot Limit	\$999,999.99	\$999,999.99
Jackpot Limit	Min Progressive Lock	Upper Jackpot Limit	\$999,999.99
Jackpot Limit HHR	\$0.01	\$999,999.99	\$600.00
Jackpot Limit (X Bet)	1	999999999	300
Min Progressive Lock	\$0.01	Jackpot Limit	\$999,999.99

1.1. Max Ticket In/Elec. Transfert

Set a credits limit for voucher and Electronic Transfer insertion. Voucher or SAS insertion that would set the current credits higher than this config are rejected. (Unless *Check Money Over Max Limits* is enabled.)

1.2. Max Bill In

Set a credits limit for bills insertion. Bills that would set the current credits higher than this config are rejected.

1.3. Max Credit

Set a limit for the maximum number of credits that can be in the EGM. Wins that would set the current credits higher than this config are automatically collected.

1.4. Max Ticket

Set a limit for cashout. Voucher higher than this config cannot be printed, the intervention from an attendant is required for collects higher than this amount.

1.5. Upper Jackpot Limit

Set a limit over which a win cannot be transferred into the credits via SAS or *Jackpot Reset To Credits*.

1.6. Jackpot Limit

Set a win limit over which wins lock up. Those locks are not necessarily taxable.

1.7. Jackpot Limit HHR

Jackpot Limit HHR work in conjunction with *Jackpot Limit (X Bet)*. Wins that are higher than the *Jackpot Limit HHR* and that represent at least X times the wager locks up. Such locks are taxable and the handpay window is identified as such.

1.8. Jackpot Limit (X Bet)

See *Jackpot Limit HHR*.

1.9. Min Progressive Lock

Set a win limit over which games with progressive and/or parigressive must lock. Those locks are not necessarily taxable.

1.10. Jackpot Reset To Credits

Allow the EGM to reset a handpay into the EGM credits without the SAS command.

1.11. Receipt on Jackpot Reset to Credits

Allow the printing of receipt when a handpay is reset into the EGM credits.

1.12. Check Money Over Max Limits

Voucher that would set the current credits higher than the *Max Ticket In/Elec. transfer* are inserted, but the difference is printed back as a voucher.

2. Handpay / Lock Up

2.1. Taxable

2.1.1. Jackpot Limit HHR + Jackpot Limit (X bet)

For a taxable lock to occur, a win must be higher than *Jackpot Limit HHR* and represent at least X times the wager.

2.2. Non taxable

Those handpays are not taxable, but they could be if they also respect the minimum requirements for a taxable.

2.2.1. Jackpot Limit

Any win higher than *Jackpot Limit* will lock.

2.2.2. Min progressive Lock

Any win with a progressive or parigrressive will lock if the total win is higher than the *Min Progressive Lock*.
